SUMMARY

Computer Systems Engineering student at Universidad Fidélitas, graduating in 2027, seeking an entry-level cybersecurity role. I passed TryHackMe's hands-on SEC1 exam, hold the Palo Alto Networks Cybersecurity Professional Certificate and practice daily in a self-managed Kali Linux lab. I have deployed a segmented 32-camera network across 2 sites and bring Tier 1 ticketing and escalation discipline. Preparing for CompTIA Security+.

SECURITY LAB & PROJECTS

Home Security Lab · Kali Linux (WSL), TryHackMe Premium 2024 – Present

- Passed the SEC1 hands-on exam (7 scenario-based sections): Windows/Linux fundamentals, network traffic analysis, web security, SOC log analysis, password attacks and malware analysis.
- Completed TryHackMe paths Jr Penetration Tester (Nov 2024) and Pre Security (Oct 2026, 19+ hours); daily CTF practice on TryHackMe and OverTheWire.
- Practice reconnaissance, enumeration and exploitation with Nmap, Wireshark, Metasploit, Gobuster, Burp Suite, John the Ripper and Hashcat.

Local AI Pentest Copilot (personal) Nov 2026

- Deployed a self-hosted LLM assistant for bug bounty research with Ollama and Open WebUI in Docker, running a 14B-parameter model locally.

Prototype Management Web System · Bioquimia S.R.L. (Advanced Programming course) 2026

- Wrote the users and security requirements; built catalogs, listings and documentation in the development phase.

Inventory Management Web System · Fundación SOLCA (University Community Service) Oct 2026 – Present

- Scoped the system and wrote the approved project proposal, including the users and security module, at zero cost to the foundation.

EXPERIENCE

Technical Systems Developer · Hernández y Martins, S.A. (Grupo MH) Jun 2026 – Nov 2026

Garabito, Puntarenas · Contract, weekends

- Designed and deployed a CCTV system across 2 sites with 32 IP cameras, NVR, 2 switches and a wireless antenna link.
- Installed Cat 6 structured cabling with VLAN segmentation and static IP addressing; 99.2% uptime with remote web and mobile monitoring.

Customer Support Representative (Tier 1) · Foundever May 2025 – Aug 2025

San Pedro, San José · Phone-based technical support in English for Verizon customers

- Troubleshot device and network connectivity issues, documented every case in a ticket and escalated to Tier 2.

TECHNICAL SKILLS

Security: log analysis, network traffic analysis, web security basics, password attacks, malware analysis basics; MFA, IAM and RBAC concepts

Tools: Nmap, Wireshark, Metasploit, Gobuster, Burp Suite, John the Ripper, Hashcat, Docker, Git

Networking & systems: TCP/IP, DNS, DHCP, HTTP/HTTPS, LAN/WAN, VLAN, basic VPN, Windows 10/11, Linux (Kali)

Scripting & data: Python, Bash, SQL (MySQL, SQL Server)

EDUCATION & CERTIFICATIONS

B.S. in Computer Systems Engineering (Bachillerato) · Universidad Fidélitas 2024 – Expected Sep 2027

- TryHackMe Cyber Security 101 (SEC1), Oct 2026 · Palo Alto Networks Cybersecurity Professional Certificate, Sep 2025
- Cisco CCNA: Introduction to Networks, Dec 2024 · Cisco Ethical Hacker, Nov 2024 · CompTIA Security+ (in preparation)

LANGUAGES

Spanish (native) · English (B2+, professional; phone support in English at Foundever)
